## EDUCATION

Examination	Majors	Institute
Graduation	Computer Science Engineering	Stani Memorial College Of Engineering and Technology
Intermediate	Science	Jai Narayana Saraswati Vidya Mandir Inter college
Matriculation	Science	Jai Narayana Saraswati Vidya Mandir Inter college

## SUMMARY

I am a recent computer science engineering graduate with a passion for web development and a strong foundation in programming and software engineering. Proven expertise in building web applications using technologies such as Javascript , ReactJS, HTML, CSS. Eager to leverage my skills and knowledge to contribute to dynamic web development projects. In the ever-evolving field of web development. Ready to bring a creative and analytical mindset to a professional development team.

## TECHNICAL SKILLS

Programming	JavaScript
Development	Bootstrap, ReactJS
Design	HTML , CSS
Tools	Git, GitHub, VSCode, Redux

## PROJECTS

**Text Utils** | Reactjs

May 2024  
[Live Demo](#)

- Implemented key text manipulation features such as converting text to uppercase, lowercase, and clearing text input, enhancing user interaction and experience.
- Integrated clipboard functionality using modern JavaScript APIs to enable text copying and pasting, ensuring seamless and efficient user operations.

**Weather App** | HTML , CSS , Javascript

April 2024

[Live Demo](#)

- This app**, users can easily check the current weather conditions for any location worldwide, right from their browser. Whether it's sunny skies or heavy rain, they'll always be prepared!
- Using modern web development techniques, **I created a responsive and user-friendly interface** that adapts seamlessly to any device, ensuring a consistent experience for all users, whether they're on desktop or mobile.
- The app utilizes the **OpenWeatherMap** API to fetch real-time weather data, providing accurate and up-to-date **information on temperature, humidity, wind speed**, and more. With just a few clicks, users can stay informed and plan their day accordingly.

**Meal Finder** | HTML , CSS , Javascript

March 2024

[Live Demo](#)

- Utilized an external **API to fetch** a wide range of recipes based on user preferences.
- Implemented search and filter functionalities to allow users to easily discover **recipes by ingredients, cuisine**.
- Designed a responsive and visually appealing user interface for seamless navigation on both desktop and mobile devices.

## HOBBIES

- Travelling.
- Cricket.

## ACHIEVEMENTS & CERTIFICATIONS

- [**Django 4 And Python Full-Stack Developer MasterClass**]: <https://www.udemy.com/certificate/UC-98544052-669a-4b84-8a3f-c964d839543c/>
